Dear Mr. Raymond:-

I have your letter of
January 6th. I think perhaps you had better
send me my box of duplicates which I shall
hold for a while. I expect to leave for
a few weeks trip to the West Indies on the
16th of this month and I think you had better
keep any coins you may have to show me until
after my return towards the end of February.

Mr. Wayte Raymond,
489 Park Ave.,
New York, N.Y.

Dear Mr. Raymond:-

I am very well satisfied with the Oregon piece but I want to ask you some questions about the other two you bought for me. The Annam piece does not seem to me to have been very well described. There is no information to show it was of smaller size than the type of Schroeder 205, nor that it was unifaced. My chief interest in it was on account of the Schroeder type 205 being the first round coin of Annam, and I should like to know whether this piece belongs to that series. In regard to the Wass Molitor, the "2" of the date seems to be made with a plugged dye as it has a distinct circle around it. I know that the 1855 pieces were dated with plugged dyes but I did not know that the earlier dates were and I can find no description of such a piece in Adams or in the American Numismatic Society's exhibition catalogue. Please let me know something more about it. And I should like to know in addition if you know from which collections these three pieces came.

Very truly yours,

JWG/S

Mch 16. 1927.

Dear Mr. Garrett

Your favor of the 14th inst. recd.
I am sorry the Annam coin was not just
what you expected. However I believe it belongs
to the first series on account of the uni-
face reverse. If it is not satisfactory
it will be all right to return it and
I will put in stock.

In regard to the W. M. Co. 1000l. am
afraid I cannot tell you very much. I
noticed the plugged die and Adams
cut of 47 is so hazy it is impossible
to tell if that piece is similar. We
have so little opportunity to make
comparisons of these coins that it
is difficult to arrive at a conclusion.
I think Mr. Newcomer has the same
variety and do not doubt he would
be glad to show it to you.

The Oregon piece came about two years ago from the Collection sold by Mehl sold as the "Judge Slack" Coll. The W.M. & Co. piece came from a small dealer who acquired it some where in the West I believe.

I am leaving for abroad on March 29th and would be glad to know if there is anything special you would like me to be on the look out for. My address will be Guaranty Trust Co. Paris as usual but as I expect to be travelling in Southern Europe will not reach Paris until early in May. Have a few more interesting items to be sent you this week.

Dear Mr. Garrett

I enclose a few coins
for your inspection. The Carthage
electrum stater is quite an unpub-
lished head. I think the trial piece
of the 1836 dollar of special interest.
This is Sobrecht's own trial piece
with the working lines in the
field and is of course of the greatest
rarity.

Yours very truly

Dear Mr. Raymond:-

I have decided not to keep the Electrum Stater of Cyzicus, and am returning it to you by registered mail today.

There are a few books that I should like and I wonder if you can get them for me.

Babelon, Traité Vol. III. Text and Planches.
" " Vol. IV. (in preparation)
" Description Historique. Tome I.
Evans Ancient British Coins, Supplement.
British Museum Catalogue of Oriental Coins.
7 or 8 volumes plus 2 supplements.
Mattingly and Sydenham, Hand Book of
Roman Coins. 2 volumes.

I have not bought any of the commemorative half dollars since the Sesquicentennial set, and if you can get them for me in perfect condition, I should like to have the Oregon Trail and all publishedⁿ and including 1927.
